

PROFILE

I am a communicative and studious 28 year old woman with a calm and caring personality.

Last year I moved to the Netherlands and not long after decided to change my career to a more fulfilling field. I started studying Web Development; I aspire to become a Front-End Developer with a strong knowledge of UX as well.

I strive to deliver clear and accurate projects and also go the extra mile to really understand the content I'm working on. I enjoy creative problem solving processes and seeing pieces come together to form a satisfactory output.

Outside of work I like spending time in nature, travelling, music and reading. I am fond of learning languages and I am currently studying Dutch.

To whom it may concern,

Lilla Pulay has been working at Deloitte between 09/2018-03/2019 in the Grants and Incentives / Government Advisory team under my supervision.

Working with Lilla I got to know an enthusiastic, hard-working and committed teamplayer. She has an eye for the detail and delivers her work with a very structured output. She is always aiming for the best possible performance. She knows her strengths and development areas and is focused on self improvement; likewise, she is always open to feedback and acts upon it.

A key project we worked on together was an economy whitening study, which involved the analysis of the recent Government measures in Hungary, a thorough international benchmark on specific measures to support the cashless economy, and an in-depth analysis of economic areas with the highest potential of whitening in Hungary (i.e. construction sector, car retail and reparation, etc.). Besides writing the study numerous presentations were developed for project meetings and progress reports, both in Hungarian and English languages. Lilla also participated in client meetings and provided valuable input. Her commitment and structured & precise work was essential for the success of the project as other staff's availability was very limited during the project's course.

Our team was sad to learn that Lilla left us for -very understandable- personal reasons and we miss her in our team since. We hope that she will quickly find her path in her new journey.

Best Regards,

Bence Kovats
